APEX TUITIONS

Daily Worksheet Series

Grade 8 • Science

CBSE / State Board Aligned

Student Name: _____ **Roll No / Sec:** _____ **Date:** _____

Max Marks: 25 **Time Allowed:** 40 Mins **Total Questions:** 11

DAILY PRACTICE WORKSHEET

Grade: 8 | **Subject:** Science | **Curriculum:** CBSE / State Board

Name: _____ **Date:** _____ **Roll No.:** _____

SECTION A: Conceptual Recall & Objective Type

(Answer all questions in the space provided)

Q1. The force exerted by a charged body on another charged or uncharged body is known as _____ force.

Q2. Identify the correct statement regarding pressure exerted by liquids:
a) It decreases with depth
b) It increases with depth
c) It remains the same at all depths
d) It acts only in the downward direction
Answer: [_____]

Q3. Which cellular organelle is commonly referred to as the "Powerhouse of the Cell"?
Answer: _____

Q4. True or False: Frictional force always acts in the direction of motion of an object.
Answer: [_____]

Q5. The process of conversion of sugar into alcohol by the action of yeast is termed as _____.

SECTION B: Short Practice & Working Problems

(Show working/steps clearly wherever applicable)

Q6. A force of 240 N is applied over an area of 4 m^2. Calculate the pressure exerted.
Formula:
Calculation:
\ \ **Final Answer:** _____ N/m^2

Q7. State two structural differences between a Plant Cell and an Animal Cell.
Point 1: _____
Point 2: _____

Q8. Two forces of magnitude 45 N and 20 N act on a wooden block simultaneously in opposite directions along a straight line.

APEX TUITIONS

a) Calculate the net resultant force acting on the block.
b) State the direction in which the block will move.
\ \ **Working Space:**

Q9. Why do heavy transport trucks typically have six to eight broad tires instead of four standard tires? Explain using the relationship between pressure and area.
\ \

SECTION C: Application & Critical Thinking

Q10. A student tries to cut an apple using the blunt edge of a kitchen knife and finds it difficult. Upon turning the knife to the sharp edge, the apple is cut easily with the same applied effort. Explain the scientific principle behind this observation.
\ \

Q11. An astronaut attempts to drink juice using a plastic straw while stationed in an open environment on the surface of the Moon. Will the astronaut be successful in drinking the juice this way? Justify your answer based on atmospheric conditions.
